Message from
Advisor to Chief Minister for Finance

Public debt is an important instrument of fiscal and development policy when managed prudently, transparently, and within sustainable limits. Responsible borrowing enables governments to meet financing requirements, support priority investments, and address infrastructure and service-delivery needs while maintaining long-term fiscal stability.

The Government of Khyber Pakhtunkhwa remains committed to directing borrowed resources towards productive and development-oriented sectors that contribute to economic growth and improve the quality of public services. Investments in energy, transport, health, education, tourism, irrigation, agriculture and livestock play an important role in strengthening the provincial economy, supporting employment and expanding opportunities for the people of Khyber Pakhtunkhwa.

This approach is supported by the Khyber Pakhtunkhwa Fiscal Responsibility and Debt Management Act, 2022, which provides a statutory framework for strengthening fiscal discipline, improving debt management and promoting greater transparency and accountability in public financial management.

Within this framework, the Government continues to strengthen debt monitoring, reporting and risk management. The regular publication of the Debt Statistical Bulletin shows this commitment by providing stakeholders with timely and reliable information on the Province's debt portfolio and supporting informed fiscal planning and policy decisions.

Our objective remains clear: to manage borrowing prudently, utilize financing for productive purposes, manage fiscal risks effectively, and maintain debt sustainability over the medium and long term. Through continued improvements in fiscal and debt management, the Government remains committed to strengthening the financial resilience and sustainable development of Khyber Pakhtunkhwa.

Tariq Mehmood Pasha
Advisor for Finance
Government of Khyber Pakhtunkhwa

FOREWORD

The Annual Debt Bulletin presents an updated position of the public debt portfolio of the Government of Khyber Pakhtunkhwa for the fiscal year ending June 30, 2026. It provides a consolidated view of the Province's debt stock, composition, servicing profile, disbursements and related debt indicators, and shows the Government's approach towards prudent and sustainable debt management.

The Bulletin is intended to provide citizens, policymakers, development partners, financial institutions and other stakeholders with reliable and accessible information on the Province's debt position. Regular publication of debt statistics supports informed decision-making, strengthens fiscal transparency and provides a clearer understanding of developments in the provincial debt portfolio.

This publication has been prepared in accordance with Section 11(6)(k) of the Khyber Pakhtunkhwa Fiscal Responsibility and Debt Management Act, 2022, as amended in 2026, which provides for the publication of debt statistics at least twice during a financial year. The continued publication of the Debt Bulletin shows the Government's commitment to transparency, accountability and responsible public financial management.

I appreciate the efforts of the Debt Management Office (DMO), Finance Department, in strengthening debt recording, monitoring, analysis and reporting. I would particularly like to acknowledge the contribution of Mr. Touseef Khalid, Additional Secretary (Resources); Mr. Abdul Qayyum Khan, Director General, Debt Management Office; Mr. Amjad Hanif, Financial Analyst Debt; and Syed Khawar Rasool Shah, Financial Analyst Debt, for their professional contribution towards the preparation and finalization of this Bulletin.

Muhammad Ayaz
Secretary Finance
Government of Khyber Pakhtunkhwa

INTRODUCTION

The Debt Statistical Bulletin presents a structured and data-driven overview of the public debt position of the Government of Khyber Pakhtunkhwa for the period July 1st, 2025 to June 30th, 2026. This document consolidates information on outstanding liabilities, disbursements, debt servicing, currency composition, creditor exposure, and key risk indicators, providing a clear analytical basis for fiscal assessment and policy planning.

As of June 30th, 2026, the total outstanding debt stood at PKR. 836.464 billion as compared to PKR 776.321 billion as of June 30, 2025, showing an increase of 7.7% over a period of the fiscal year during reconciled with Ministry of Economic Affairs Islamabad. The increase is primarily attributable to net disbursements under active development projects, along with valuation adjustments arising from exchange rate movements.

During the reported period, total debt servicing amounted to PKR 50.628 billion, comprising PKR 33.392 billion in principal repayments and PKR 17.236 billion in interest payments. Debt servicing obligations are executed through a structured mechanism under which repayments are deducted at source on a monthly basis by the Federal Government from the Province's share of federal transfers, in accordance with agreed financing arrangements.

The province currently manages a portfolio of 101 Nos. of loan fundedprojects obtained from international development partners. Out of these, 30 projects are in the active phase, where disbursements continue in line with implementation schedules. The remaining 71 Nos. are closed in the repayment stage, requiring regular debt servicing in the shape of principal and interest amount in accordance with agreed amortization schedules. This distribution shows the evolving structure of the debt portfolio, balancing ongoing financing needs with maturing repayment obligations.

Given the predominantly external composition of the debt portfolio, exchange rate movements remain unchanged in the valuation of outstanding liabilities. During the period under review, the Pakistani Rupee depreciated slightly against the United States Dollar.

This edition provides stakeholders with a detailed snapshot of the province's debt structure, risk profile, and repayment dynamics, forming the analytical foundation for informed fiscal oversight and sustainable financial management.

DEBT PORTFOLIO OF MERGED DISTRICTS (Ex-FATA):

Following are the loans executed in the MDs:

1. **IDA 6270 – KP Economic Corridor Project (KPEC):** Aimed at enhancing regional connectivity and trade, featuring a dedicated component for upgrading road infrastructure and transport networks in the Merged Districts to link them with major economic centers.
2. **IDA 7143 – KP Rural Accessibility Project (KPRAP):** Designed to expand rural access to markets, education, and healthcare, including the construction andrehabilitation of rural roads in the Merged Districts to reduce isolation and boost local economic activity.
3. **IDA 7348 – KP Rural Investment and Institutional Support Project (KP-RIISP):** Focused on strengthening local governance and community-driven development, with an emphasis on institutional capacity building and small-scale infrastructure investments in the Merged Districts.

These initiatives are supported by concessional financing from multilateral development partners, including the World Bank (IDA), which offers favorable terms and promotes sustainable, inclusive growth, all while ensuring prudence within the province's broader debt framework.

15. GLOSSARY:

AFD	The French Development Agency (French: Agence française de développement, AFD) is a public financial institution that implements the policy defined by the French Government.
ATM	A measure of weighted average time to maturity of all principal repayments in the portfolio. ATM measures the average length of time it takes for all debt instruments to mature. A longer ATM implies lower refinancing risk and vice versa.
ATR	A measure of weighted average time until all principal repayments in the portfolio become subject to a new interest rate. The longer the period, the longer the interest exposure.
Debt to Revenue	The ratio of outstanding debt to Revenue measures the burden of debt on the Provincial Revenues
Disbursed and Outstanding	Disbursed and Outstanding: Total amount which has been disbursed and which is due to be repaid.
Disbursements	Inflow of funds from the lender to the borrower against a loan agreement
DM	The deutschemark (or "D-mark") was the official currency of the Federal Republic of Germany until 2002. First issued in 1948, it was legal tender in West Germany, and later, the unified German state until the final adoption of the euro (EUR) in 2002. The official currency code was DEM on forex markets.
On lent Debts	Debts that are borrowed by Federal government and then re-lent to a Provincial entity.
Refinancing Risk	The possibility that a borrower cannot refinance its debt by borrowing to repay existing debt.
Weighted Average Interest Rate (WAIR)	The weighted average level of interest rates on outstanding debts. The weight to be used is determined by the value of the debt as a percentage of the total outstanding amount.
Disbursed and outstanding loans	Those loan amounts which are already disbursed to the province, and thus it's the liability of the provincial government to repay these at future dates as per the loan amortization schedule.
Active Loans	Those loans in which the committed loan amount is not yet fully disbursed to the province, as it includes both amounts that are undisbursed, and disbursed &

	outstanding. There is an inflow of loan amount during the active period, which is usually 5 years from the date of signing.
Closed Loans	Those loans in which no disbursements (inflow of loans) occur, there is only repayment of loan principal and interest during this period, which usually ranges from 20-25 years.
Floating Interest Rate Loans	The interest on these loans varies according to the market interest rates linked with a benchmark; previously it was usually London Inter-Bank Offered Rate (LIBOR), nowadays **SOFR (Secured Overnight Financing Rate**) and TONA (Tokyo Overnight Average Rate).
Fixed Interest Rate Loans	The interest on these loans does not vary with the changes in market interest rates, but remains fixed for the entire loan repayment period.
